

PAMOD DHANANJANA

Software Engineering Student | Full-Stack, Android & Systems Developer

pamoddananjana487@gmail.com | +94 767 226 743 | Kiribathgoda, Sri Lanka | github.com/pamod100 | linkedin.com/in/pamod-dhananjana-4799943a7 | my-portfolio-seven-teal-90.vercel.app

PROFESSIONAL SUMMARY

HND-qualified Software Engineering graduate (ICBT Campus / Cardiff Metropolitan University) with hands-on experience across full-stack web development, native Android apps, C++ systems programming, and relational database design. Delivered seven real-world projects spanning REST APIs, SOA platforms, agricultural marketplaces, healthcare systems, and mobile applications. Strong collaborator with Agile/Scrum, QA testing, and clean code experience.

EDUCATION

Higher National Diploma in Computer Software Engineering | Nov 2024 – May 2026

ICBT Campus, Associated with Cardiff Metropolitan University

Modules: OOP, Data Structures & Algorithms, Mobile App Development, Web App Development, Database Design & Development, SDLC, Fundamentals in Programming, Service-Oriented Computing.

WEB DEVELOPMENT PROJECTS

KMC Event Management Platform – SOA Web Application | Feb 2026 – Apr 2026

Full-Stack Developer (ASP.NET Core API + Web Client)

- Built a Service-Oriented REST API for the Kandy Municipal Council supporting event creation/management, participant registration, and public event search/filtering by date and type.
- Implemented RBAC with organizer and public dashboards; enabled third-party integrations via the API to eliminate manual data entry for external organizers.
- Justified SOA over Monolithic architecture for maintainability and scalability in a multi-stakeholder municipal platform.

Tech: .NET (ASP.NET Core), C#, REST API, JavaScript, SQL Server, HTML5, CSS3, Postman, GitHub

Medicare Plus – Healthcare Web Application | Oct – Nov 2025

Full-Stack Developer (PHP + MySQL)

- Built a secure multi-role platform (Admin, Doctor, Patient) with RBAC, real-time appointment checker and AJAX-powered live chat between patients and doctors.
- Designed a normalized MySQL database handling patient records, appointments, prescriptions, and secure authentication.

Tech: PHP, MySQL, JavaScript, AJAX, Bootstrap, HTML5, CSS3, GitHub

AgriLease – Agricultural Machinery Rental Platform | Apr 2026 – May 2026

QA & Integration Specialist / Back-end Developer (Group Project – Final HND Computing Project)

- Built a web-based sharing economy marketplace connecting agricultural machine owners (Lessors) with farmers (Lessees) across Sri Lanka, built with Vanilla PHP, MySQL, HTML5, Tailwind CSS, and JavaScript.
- Designed and executed a 30-case black-box test plan covering authentication, booking lifecycle, database integrity, session management, and API security; all cases passed with phpMyAdmin cross-validation.
- Developed backend PHP API endpoints for fleet management, booking status transitions, and the Lessor dashboard; implemented PHP session-based RBAC with centralized endpoint authentication across all six API files.
- Conducted OWASP Top 10 security audits; implemented SQL injection prevention via PHP PDO prepared statements, XSS input sanitisation, and CSRF token validation platform-wide.

Tech: PHP, MySQL, JavaScript, Tailwind CSS, Leaflet.js, Tesseract.js, XAMPP, GitHub, Agile/Scrum, Black-Box Testing

ANDROID DEVELOPMENT PROJECTS

TechCare – Android Device Repair App | Oct 2025 – Jan 2026

Android Developer

- Developed a native Android app for device repair bookings using Java/XML with SQLite for user authentication, booking management, and service history.
- Built Material Design UI components with smooth navigation across repair service categories.

Tech: Java, XML, Android Studio, Android SDK, SQLite, Material Design, GitHub

BrainPath – Educational Roadmap App | Sep 2025 – Present

QA Engineer

- Performed functional testing and bug documentation on a mobile app digitizing the Sri Lankan national curriculum into an interactive node-based learning roadmap.
- Participated in Agile sprint reviews; contributed test case documentation across multiple release cycles.

Tech: *Android Studio, REST APIs, JSON, Agile/Scrum, Jira, ClickUp, Figma*

ADDITIONAL TECHNICAL PROJECTS

Little Haven Bookstore Management System | Feb – Mar 2025

Developer | Java & MySQL

- Built a full management system for bookstore workflows: inventory tracking, sales processing, CRUD operations, and user role management using Java and MySQL.

Tech: *Java, MySQL, JDBC, OOP*

Furniture Village Ordering System | Feb – Mar 2025

Developer | C++ Systems Programming

- Designed a menu-driven C++ console application with user login, furniture inventory management, order placement, and a full SRS document covering functional requirements and test cases.

Tech: *C++, OOP, Menu-Driven Architecture, File Handling*

TechVille Municipal Database System | Apr – Jun 2025

Database Designer | MySQL

- Designed and implemented a relational database normalized to 3NF for municipal data (citizens, land use, building permits); validated with a structured black-box test plan.

Tech: *MySQL, SQL (DDL/DML), Schema Design, Normalization 1NF–3NF*

TECHNICAL SKILLS

Languages: Java, C++, C#, JavaScript, PHP, SQL

Web: HTML5, CSS3, PHP, AJAX, ASP.NET Core, Bootstrap, REST APIs

Mobile: Android Studio, Android SDK, Java (Android), XML, SQLite, Material Design

Databases: MySQL, SQLite, Firebase, SQL Server | Normalization (1NF–3NF)

Tools: Git, GitHub, Figma, Postman, Jira, ClickUp

Methods: Agile/Scrum, SDLC, OOP, SOA, RBAC, Black-Box Testing

CERTIFICATIONS

One Million Prompters – Certificate of Completion | 2026

Dubai Future Foundation | Dubai Centre for Artificial Intelligence

- Completed the One Million Prompters initiative, launched by His Highness Sheikh Hamdan bin Mohammed bin Rashid Al Maktoum, Crown Prince of Dubai, focused on developing prompt engineering skills for AI systems, in alignment with the Dubai Universal Blueprint for Artificial Intelligence.

LEADERSHIP & VOLUNTEER

Secretary – Charity Donation Project | May – Jul 2025 | Cancer Hospital, Maharagama / ICBT Campus

- Administrative lead for 70 students — drafted meeting minutes, formal announcements, and official letters coordinating the student body and administration.
